Mounting Kits

A variety of mounting kits are available to satisfy specific individual needs.

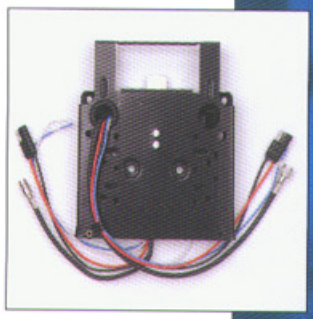

- **Three Point Mounting Trunnion:**
  Compatible with all models of mobile radios to provide extra stability in high vibration working environments. *Must be used with low-band radio mobiles.*
  Part number RLN4774

- **High Profile Mounting Trunnion:**
  Provides a wider range of mounting positions.
  Part number GLN7317

- **Low Profile Mounting Trunnion:**
  Ideal for mounting the mobile radio in more confined space.
  Part number GLN7324

- **Key Lock Mount:**
  Provides increased security when the mobile radio is in the mounting trunnion.
  Part number RLN4779A

- **Removable Slide Mount:**
  For users who need to remove the mobile radio from its mounting kit frequently and easily.
  Part number GLN7341 (BNC) HLN8097 (Mini U)

- **DIN Mounting Kit:**
  For users who require the direct mounting of the mobile radio into the vehicle dashboard.
  Part number RLN4781 (Control Head Popular)
  RLN4782 (Control Head Versatile)

- **Remote Mounting Kit:**
  Allows mounting in confined spaces by disconnecting the control head from the radio unit. The control head is mounted where it is visible while the radio unit is mounted where space is easily available.
  Part number RLN4780 (Control Head Sophisticated)
  RLN4801 (Control Head Popular)
  RLN4802 (Control Head Versatile)

- **Remote Mounting Cable:**
  Part number RKN4077 (3 m)
  RKN4078 (5 m)
  RKN4079 (7 m)

Installation Kits

- **12 V Power Cable Battery**
  Part number HKN4137 (1-25W)
  HKN9402 (25-45W)

- **Accessory Connector Kit:**
  Allows accessories to be fitted to the accessory connector on the rear of the mobile radio.
  Part number HLN9457

- **External Alarm Relay**
  Part number GKN6272
