MOTOROLA

TWO-WAY RADIOS

GM360: The Versatile Radio

The GM360 is essential for growing organisations because of its unique versatility. When necessary, the radio can easily be programmed in the field to add or delete features, making flexibility the hallmark. The versatility of the GM360 helps you to keep productivity at its highest, no matter how fast your business grows.

A wide array of features include:

- Signalling
  The radio software encompasses Private Line™ and 5-tone selective signalling.
- Emergency Signalling
  Sends a help signal to a pre-defined person or group of people. The help signal can contain a pre-recorded voice message enabling your whereabouts or status to be determined immediately by the receiving person.
- Lone Worker
  Added security and safety for individuals who work remotely from their team. The radio enters emergency mode if the user does not respond to the warning signal.
- External Alarm
  Activates the vehicle horn and/or lights on receipt of an incoming call, so you won't miss a call even when away from your vehicle.
- User Information
  A14-character alphanumeric display contains icons for programmed features, prompts for operational awareness and name decode for many incoming calls. Radio provides distinctive tones for different calls and functions.
- Ease of Use
  Simple menus and an alphanumeric contact list make the full power of GM360 simple and intuitive to use.
- Status Calls
  Pre-defined text messages which allow the user to send meaningful messages without talking.
- DTMF
  Provided that your radio has access to a phone system and you are utilising an enhanced keypad microphone, you can make phone calls from your radio.
- Public Address Mode
  This feature allows you to use your radio audio as a public address system simply by adding an external speaker and switch fitted and programmed by your dealer.
- Memory Channel
  You or your dealer may programme up to two memory channel buttons, which give you quick access to frequently used channels.
- Car Radio Mute
  Automatically mutes your in-car audio entertainment system to allow calls to be heard and sent without interference.
- Data Capable
  A modem can be fitted inside a special expansion head, or external to the radio.

Additional features include:

- Channel Scan
- Voice Operated Transmit (VOX)
- X-Pand™ Voice Compression and Low Level Expansion
- Call Forward
- Option Board Expandability*

***Please check with your dealer for availability on specific option boards.**
