Description	Order Code	RRP
VHF 136 - 174 MHz	MDH25KDF9AN5-E	**£465.00**
UHF 403 - 470 MHz	MDH25RDF9AN5-E	**£465.00**

General Technical Details of GP360			
		VHF	**UHF**
Frequency Range:	MHz	136-174	403-470
Channel Spacing:	kHz	12.5 or 20/25	
No. of Channels:		16	
Dimensions:	mm	137 x 57 x 37.5 WITH HIGH CAPACITY BATTERY	
Weight:	g	420 WITH HIGH CAPACITY BATTERY	
Power Supply:		Rechargeable NiCD, NiMH Standard, NiMH High, Lilion	
Environmental:		Meets IP54 & Mil-STD 810 C, D, & E. environmental specifications for vibration, shock, rain, dust & humidity	

X-Pand VOICE COMPRESSION AND LOW LEVEL EXPANSION
Provides crisp,clear and strong audio quality in virtually any noisy environment.Low level expansion allows further improvements in audio quality by reducing noise heard during pauses in conversation.

WHISPER
Allows a user to speak quietly into a radio and still be heard clearly by other radio users.

VOICE OPERATED TRANSMIT.
Allows total hands-free operation with a headset accessory when the radio is carried on a belt or shoulder strap.

SIGNALLING
The radio software encompasses CTCSS and Selcall as standard.

LONE WORKER
Using Selcall signalling,the radio enters emergency mode if the user does not respond to a warning call,adding security and safety for individuals who work remotely from their team.

EMERGENCY SIGNALLING
Sends a Selcall help signal to a pre-defined person or group within the team.

CALL FORWARD
Allows calls to be forwarded onto another radio or radios,using Selcall,if calls cannot be answered personally.

- **ADJUSTABLE POWER LEVELS.**
  The radios output power has two settings: Low power extends battery life and high power allows the radio to transmit over greater distances.
- **TIME OUT TIMER.**
  Limits the amount of time a user has to continuously transmit.This allows for more efficient use of the channel.
- **LIGHTWEIGHT**
  Weighing only 420gms with the standard Nimh high-capacity battery means the radio is easy to carry without fatigue.
- **ACCESSORIES**
  A full range of audio/mic and battery options allows easy customisation for all applications.
- **IN-BUILT RUGGEDNESS**
  Built to MIL STD 810 C/D/E and IP54 ensure a long working life even in the toughest conditions.
- **INTRINSIC SAFETY OPTION**
  Factory Mutual approved when safety is not an option.
- **Channel Scan**
  Allows activity on different communications channels to be monitored and answered.
- **Option Board Expandability**
  You can expand the existing capabilities by adding one of the following option boards.
  - Encryption for message security.
  - Smartrunk II for low cost trunking.
  - Voice Storage option board provides dictaphone features allowing you to store and retrieve voice messages.
- **Option Board Expandability**
  A 14-character alpha-numeric display contains a battery gauge and signal quality indicator and provides separate distinctive tones plus name decode for many incoming calls.
- **Ease of Use**
  Simple menus and an alpha-numeric contact list make thee full power of the GP360 simple and intuitive to use.
- **Status Calls**
  Pre-defined text messages which allow the user to send meaningful messages without talking.
